**Attachments:** Completed\_Work\_Orders\_09-13.pdf

Thanks Ron,

For the PM, we need the records showing the dates that each PM was completed over the requested period 2010-2013, as was demonstrated in the attached record for KS-10 you provided previously.

Thanks,

Will

Will,

I have attached your requested documents. PGV was granted permission from EPA to postpone MIT's to KS-1A and KS-3 for 2012 due to scheduled hangdown liner replacements in 2013.

As for the DOH reports, what we receive from Thermochem is what we send to DOH.

Also, the preventative maintenance (pm) completion list shows the frequency of work, do you need more details?

Thanks

Ron,

Thanks for sending the 2013 reports. We would appreciate if you would also send the same reports (Condition 20 chemistry, emergency generator PM, and mechanical integrity tests for injection wells) for 2010, 2011 and 2012. For the emergency generator, we might need the detailed PM reports to show work frequency. Please also send the Condition 20 report that is submitted to DOH with the chemistry data.

Thanks,

Will

Will,

I have attached all your requested documents.  
Please let me know if you have any further request.

Thank you
